

Ever since we could walk,  
we've been up on a roof.

It all started when Joseph William Mullen founded Mullen Roofing in 1938. The Mullen family tradition has continued for four generations with Joseph Roy Mullen, John Mullen Sr. and brother Jamie Sr and their sons, John Jr. and Jamie Jr.

While most of our clients are in our home state of New Jersey, we've been on the rooftops of commercial properties in Boston, Pennsylvania, North Carolina and all points in between.

Because we are completely self-contained with our own equipment, from cranes and forklifts to an entire fleet of service trucks, we can handle multiple projects and service calls simultaneously without disrupting your business or sacrificing quality of service. Thus, eliminating the need for multiple contractors.
